Recent Projects

Zelp | Full Stack   [Live](#) | [GitHub](#)

Food finding website inspired by Yelp

- ❏ Developed site using Rails, Javascript, React, and the Flux cycle.
- ❏ Securely encrypts password digests with front and backend validation for accounts.
- ❏ Responsive for browser and mobile devices using CSS media queries.

Pokedex | Full Stack   [GitHub](#)

List of Pokemon with details and pictures.

- ❏ Developed Pokedex using Rails, Javascript, React, and the Flux cycle.
- ❏ Can create new pokemon, upload images, and give pokemon items.
- ❏ Responsive for browser and mobile devices.

Minesweeper | Front End   [GitHub](#)

A classic game playable in the browser.

- ❏ Developed a simple minesweeper game in the browser using JavaScript, node.js, and React.js.

Skills

Ruby	JavaScript	React.js	SQL	HTML5	RSpec
Ruby on Rails	jQuery	Redux	Git	CSS3	Node.js

Work History

Aimco   **2016 - 2017**
Leasing Sales Consultant   Redwood City, CA
- ❏ A part of a team that filled building up to <90% occupancy in half the time we were expected (actual: 11 months, expected: 18 months)
- ❏ 2 time customer service award winner
- ❏ Salesman of the month winner after achieving 22 leases in a month

FPI Management   **2015 - 2016**
Leasing Consultant   Oakland, CA
- ❏ Brought the building occupancy up from 82% to 96% increasing yearly revenue by $900,000
- ❏ Helped increased lease renewal rate by 10% from previous year
- ❏ Successfully stabilized occupancy after flooding disaster that made building 50% unoccupiable

Education

App Academy   **2017**
1000-hour full-stack programming bootcamp with <5% acceptance rate   San Francisco, CA

University of Illinois at Urbana-Champaign   **2007 - 2011**
Atmospheric Science   Champaign, IL
